ILLUMINATING HOTELS & LUXURY RESIDENCES

Greetings Friends,

We are pleased to present this collection of recently completed feature lighting designs for Luxury Residences & Hotel projects. Nature is a strong theme consistent in all our projects: tumbling leaves, flowers, cascading water, rain droplets, ice, & even a mangrove. SpectraOne combines blown glass & crystals to create unique feature lights, that bestow each hotel & home an individual identity.

We hope you find inspiration in our latest collection, and to continue to dream with SpectraOne to create new & exciting feature lights for your hotels & homes.
